CareTrack

A smart health monitoring web app that makes basic health analysis simple, accessible, and actionable — for individuals and caregivers alike.

Why CareTrack?

Preventive Focus

Catch concerns early before they become serious.

Multi-Profile

Track health for your whole family in one place.

Instant Insights

Get condition possibilities and risk levels in seconds.

Select Profile

Choose Symptoms

Generate Report

Download PDF

Multiple Health Profiles

CareTrack lets you create and manage separate health profiles for each person in your household — ideal for parents, caregivers, and anyone managing the health of others.

Switch between profiles with ease

Keep each person's data independent

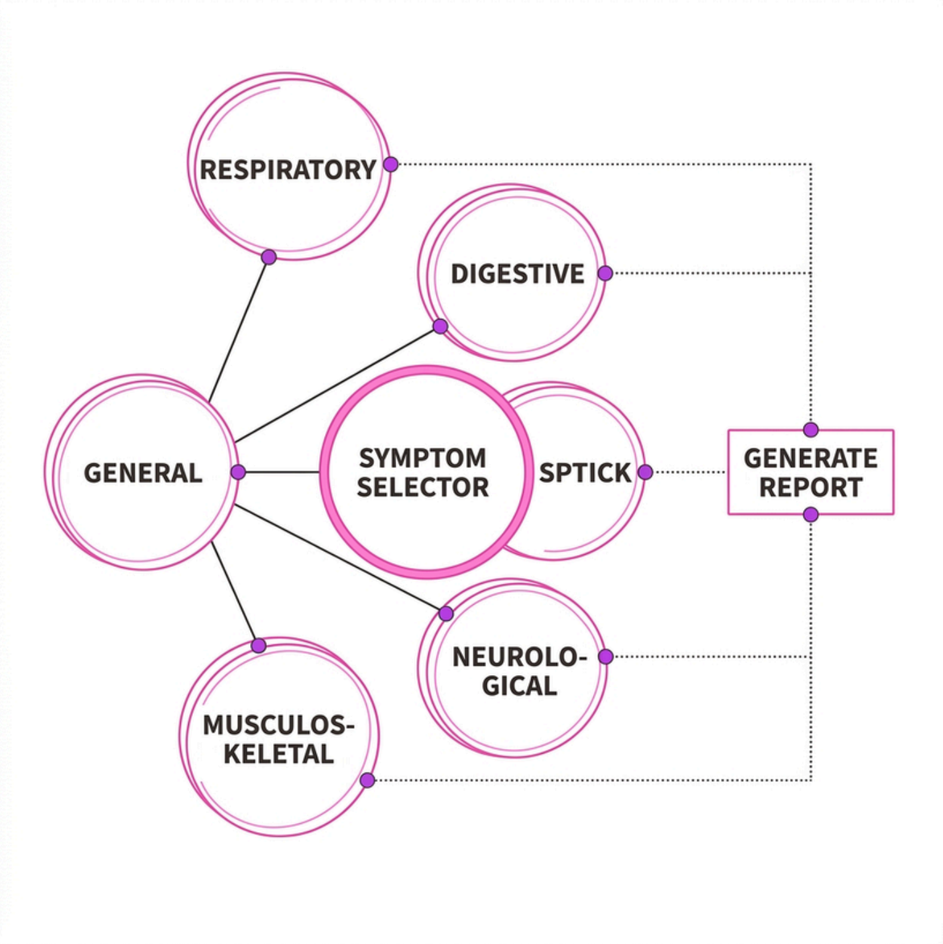
No confusion, no mixed results

Smart Symptom Selection

Organized by Category
Symptoms are grouped into clear, logical categories — making it easy to identify what you're experiencing without medical jargon.

Browse categories at your own pace
Selections are intelligently preserved as you explore
No need to start over when switching tabs

Your choices stay intact throughout the entire session — nothing is lost as you navigate.



Instant Health Reports

Possible Conditions

A ranked list of health conditions that match the selected symptoms.

Risk Levels

Each condition is flagged as low, moderate, or high risk for easy prioritization.

Doctor Recommendations

Suggested specialist types so you know exactly who to consult.

Download Your Report as PDF

Every CareTrack report can be downloaded as a clean PDF — easy to save, share with a doctor, or refer back to at any time.

- **Neatly formatted for clinical reference**
- **Share directly with your healthcare provider**
- **No account login required to access your saved fil**

Smart Data Handling

CareTrack is built with thoughtful data management at its core. Symptom data is held only during your active session and automatically cleared after the report is generated — giving you a clean slate every time.

No symptom data is stored permanently. Every session starts fresh, protecting your privacy effortlessly.

Designed for Everyone

Seniors & Caregivers

Simple navigation and clear language make CareTrack accessible for all ages

Busy Professionals

Get quick health insights without scheduling appointments for minor concerns.

Parents & Families

Manage the health of every family member from a single, unified app

Take Control of Your Health
